PARIS, Aug. 23. (Exclusive)—Paris tonight saw raised ace more the barricades that have been discarded since the days of the Commune. At the corner of the Boulevard Sebastopol and Rue Reaumur, the proletariat, this time angry against American justice, overturned wagons and cars, pulled down trees, raided a furniture store and tried to set up a barrier against charging police. Their attempt was short lived, however, for after a five-minute skirmish the mob was repulsed down a side street as a dozen different mobs had been scattered

lieve that if one of the planes did crash on the mountain it probably is the Golden Eagle, hearing Jack Frost of Los Angeles and Gordon Scott of Santa Monica. This is only conjecture, but is based on the assumption that the mountain was hit in the night and the Golden Eagle, with its estimated cruising speed of better than 120 miles an hour, would have been the logical plane to cover the distance so quickly.

If this assumption may be continued, it leaves the Miss Doran and its three occupants unaccounted for. They are Miss Mildred Doran, school-teacher for whom the plane was named; John (Auggle) Pediar, its pilot, and Lieut. Vilas R. Knope of Can Diego, its navigator.

Against this almost forlorn hope was pitted records of the naval air station at North Island, San Diego, showing that virtually every land plane which has come down in the sea, turned completely over a few moments after striking the water.

ONTARIO, Aug. 23.—Rev. Paul
Wright, pastor of the First Christian
Church, will go a long way to help a lovelorn couple step into the bonds of matrimony. He went clear to Etivands the other day to join Miss Bunnis Naomi Ruffaker and William P. Dickson of Van Nuys in the sacred ile, after they had come to him with their license.

The young couple declared their intention to wed in Riverside and got their license there. Then they decided to go to Los Angeles or samewhere size for the ceremony. Passing through Ontario they decided they had gone far enough and stopped at Dr. Wright's home. Parson Wright was all ready to speak the words when he recollected that Ontario they decided they had gone far enough and stopped at Dr. Wright's home. Parson Wright was all ready to speak the words when he recollected that Ontario is in San Bermardino county. So he couldn't perform the rites here. The wedding must be in the county wherein the license is procured.

The young folks, dismay and regret melted his heart, so he bundled them and Mrs. Wright and Mrs. J. S. Pearson into his car and drove to Winsvilla, over the county line. There, just at dusk, on the front porch of the little Winsvills echoolhouse the ceremony was performed.

SPECULATOR (N. Y.) Aug. 23.— Sene Tunney boxed three frisky

Gene Tunney boxed three frisky rounds with Paul Cavalier, a new clout - catcher, and two with Billy Vidabeck, a survivor of last year's campaign, this afternoon in the approving presence of about 200 friends and ne i g h b o r s from the tents and boarding-houses of the community.

He warmed up for this practice by annoying the light and heavy bags for about fiften and heavy bags reasonable theory, because Luis Firpo put Dempsey on his knees with a right under the heart and Tunney says the best punch he landed last year was a right smash to the flank, which made Dempsey's mouth pop open.

Tunney spanked Cavalier rather roughly a couple of times when Cavalier seemed to annoy him with rights on the ear that were just a mite too earnest. There was no brawling, however, in either bout. Tunney has a knack of boxing fast but harmiess. But sparring partners get inside his defense or swung punches over it several times.

Gene was breathing fast when he quit and his white athletic shirs clung dampy and clammy to his body. He seemed to be in excellent health and in perfect athletic condition.

As a result, the former world's heavyweight champion was forced to abandon his plans for road work, but he managed to get in a little light exercises. Dempsey, using a walking exerciser, a device similar to a treadmill, figured that he hoofed it about three miles while picking his feet up and laying them down again on this contrivance. He also went through some limbering-up exercises before before

Lastly, he will appear in the national singles, a championship he has held twice in the earlier days of his fourteen-year campaign.

Reports from the E-st indicate that the burden of the Davis Cup play is going to fall upon the shoulders of Johnston. This conclusion is reached because "Little Bill" and his terrific offensive style of play has always been virtually unsolvable to the French racketers. That the French players will defeat Japan to reach the challenging round is expected on all sides.

UR idea of a good bet is lielen Wills to capture the national tennis championship again. There is no question whatsoever as to he r strength, skill and condition. Her forther than any something the ball hard and deep and she can do that better than any player before her. The only type of player capable of giving her a genuine run for her money is a smart player and with the passing of Mary Browne and Bunary Brain there isn't any such an inditional at the present time among the women players. Molia plays the same type of game she does only not so well and the same thing is true, in varying degrees, or all the other ranking players of the present day.

While teasing the above paragraph out of our trusty Remaington (advt.) word comes in that Bobby Jones Just shot a 67 and is leading the field for the national golf crown by something

like eight strokes. It is really beginning to look as though it were a shame to stack anybody up against Boby. He is going so well this year that he makes all of his opponents, regardless of their ability, look silly by comparison and nobody likes to look like that. Apparently a couple of our other local youngsters are going strong which is a good sign. We are developing a lot of prize-winning youngsters.

Another local youngster, Frank Lockhart, bids fair to immortalize himself on the speedwar. Not only has he accomplished wonders on the race track at the wheel of racing cars, but he now proposes to regain for America the world's straightaway one-mile record, which was recently captured for Great Britain by Maj. Seagrave, who did better than 23 miles an hour down if Plorida. A special car is being built for Frank in the East and he may make his try on the dry lake at Muroc rather than in Florida.

Dempsey's condition for the forthcoming Tunney fight are in for a tough time. Last year many said be was in great shape for the Philadelphia battle, and there were few reports from his Saratoga training camp to the contrary. But the Dempsey of Saratoga was not the Dempsey of Saratoga was not the Dempsey of Philadelphia, and it's going to be hard to forget that in apite of the Sharkey victory. Hard unless you accept Dempsey's own story that he lost over ten pounds from dysentery in the twenty-four hours preceding the loss of his title to Tunney in the Sesquicentennial ring. Though Dempsey never advanced this as an alibi after his defeat by Tunney last year he belatedly revealed it to me in an exclusive interview three weeks ago during a goif game at Lakeside, and the story was substantiated by Floyd Fitzsimmona, who said Dempsey's loss of weight was nearer four-teen pounds than ten by the time he entered the ring. The story has foundation in the failure of the Philadelphia Boxing Commission to reveral Dempsey's weight at weighing-in time and the sudden betting switch to Tunney at the last minute by smart gamblers, who learned of Dempsey's twe condition. The story will be pooh-poohed in some quarters, but in others it will act as mental surrecase to the observers who found it tough to alibi their Saratoga Judgment with what happened at Philadelphia. True, Taylor is the buntamweight king and as such is a boxoffice attraction in addition to the
fact that both he and Sangor

If "Pop" Warner doesn't give

If "Pop" Warner doesn't give the young man who has been running signals on the beach at Hermona early every morning for the past month a real tryout this year Fin going to ask Jim Beynolds or Phil Wilson to look into the matter. I don't know the young man's name. He was too modest or too abashed to give it to me. But he was a "Goose" last year. He admitted that much. If you don't know what a "Goose" is your ignorance will cause astonishment in the eyes of your collegiate offspring.

All I know about this partieular "Goose" is that he is an applring halfback. I could tell this by the way he squatted on the hard sand, muttered signals to himself, then dashed through the line, or made a threat at the line and then sped at a right angle for the end. He's a splendid type—good weight, broad shouldered and with a beautiful pair of running legs. But above all else I like his spirit. Asy guy that gets up at 4 in the morning to practice signals on the beach by his lonely and cruns miles is worth a real trial. And, oh, yes, "Pop," this "Goose" lives at Serenth and Ocean Front at Hermosa. Now, you do your stuff.

Union Pacific Strong

Ignoring the relatively poor showing of its July operating statement, union pacific was one of the few strong points in the railroad list. This road's operating results have run consistently behind 1926 thus far, but July, which was reported with net operating income of \$1.684.299 against \$2,488.406 last year, is expected to mark the turning point. The point is that the crop carry-over in Union's territory from 1926 was unusually smalf, whereas, beginning with the present month, the road's agures should start to reflect the movement of one of the biggest wheat and fruit crops in years, and likewise the improved merchandising shipments growing out of freer buying reported in that territory.

Forensic fulmination followed, with the result that Judge Guerin continued the proceeding un-til the afternoon. It was agreed that the paragraphs relating to re-ceivers' fees might be read into the rec rd. This was done, and it turned on thist the newsper reporters had been exactly right, despite the oaths of secrecy. Radicalism had nothing to do with the Radicalism had nothing to do with the conviction and execution of Sacco and Vanzetti, save as their fellow-anarchists injected it into the case with torch and bomb. Sacco and Vanzetti were guilty of cold-blooded and premeditated murder and they paid the penalty for it. They went to the chair with the war-cry of anarchy on their lips, the while their sympathizers ringed the world with sabotage in "protest" against the axecutions.

The scores of Sacco-Vansetti demonstra-tions in the United States—demonstrations not in favor of the doomed men, but in opposition to government—revealed what nests of vipers we are nourishing, thanks to our too-gentle immigration regulations and to the ease with which even these re-strictions are evaded. Secretary of Labor Davis estimates that there are thousands of aliens filegally in this country, undesiribles who have smuggled themselves in Many of these are radicals of the Com-munist or Bolshevist type, preachers of an-archy and fomenters of such antigovern-ment demonstrations as marked the prog-ross of Sacco and Vanzetti to their doom. The Law's Delays

LOS ANGELES, Aug. 17.—(To the Editor of The Times:) I wish to call your attention to what I consider a very important matter affecting the public interests in California today. It is the fact that the calendars of the Supreme Court and the District Courts of Appeal in civil matters are in such a condition, being from two and one-half years behind in the Northern District to four years behind in the Los Angeles district, that much loss is being suffered by the civil litigants and others dependent upon the decision of the cases.

Jt must be apparent to everyone that a losing litigant ought not to have the power to delay litigation four years by merely filing an appeal and thus delaying the execution of even a just judgmant. To refuse to hear an appeal for four years is probably worse than refusing any appeal at all.

The Judicial Council Amendment to the constitution was adopted by the people in November, 1938, for the express purpose of relieving this situation by assigning Superior judges to clear the Supreme Court catendar, but thus far the power has not been exercised to any appreciable extent and the condition of the Supreme Court calendar is growing worse.

If it be claimed that the mensy to pay Superior judges, who might be assigned to the work, is not yet appropriated. I believe Superior judges would gladly do the work and await the next Legislature for the extra pay.

I have been night manager of a prominent bailbond company for ten months and Ucan truthfully say we made a determined effort to apprehend all who "jumped" bail. Our primary difficulty in apprehending a "fugitive" is due to the fact that the Sheriff's office will not co-operate with us nor will they attempt to get back the prisoner until the bond has been declared forfeited. We were naturally reluctant in paying forfeitures and received extensions from the trial judge so as to give us more time to locate our prisoner. In many cases the Sheriff's office was fully aware of the whereabouts of the prisoner, but did not take any steps to have him arrested till we handed out hundreds of dollars in rewards for information that led us to apprehend our fugitives.

Johnson and which played at Wallack's Theater, New York, in the spring, Next week will therefore be the last of Henry Duffy and Dale Winter in "Laff That Off," The new piece will get under way September 4. NOT NEEDED ON FARMS
Improved machinery is the chief cause of the decrease of farm population. There has been more improvement in farm machinery during the past ten years than during the previous forty years. It is now possible for one man to handle as much land as required in the service of two men, or even more, a few years ago.

The tractor, with its plows and other tiliage implements, has been perfected to a remarkable degree. The two-row cultivator, the combined harvester thresher and other machines suited to large sareages have released many thousands from farm field work. Furthermore, the competition of large-unit farming has been too much for many of the small one-horse and one-man farms throughout the Eastern and Coutharn States. NOT NEEDED ON FARMS

Add Arrent Mendosa that they had a \$2500 to distribute in charity, but they needed a man of standing to handle the money and would require a \$500 deposit.

Molino is said to have gone to Mendosa's home to get the deposit, where an argument followed, resulting in the police being called. Detective Lieutenant Edwards arrested. Garcis, finding on him, it was stated, a "phoney" roll of bills. At the men's roome the detective said he found other such rolls. Both defendants were arraigned in Municipal Cour; and placed in the County Jail.

At a church conference once a speaker made a number of very disparaging remarks regarding the universities, finally expressing gratification that he himself had not been corrupted by contact with a college, "Do I understand that the gentleman is thankful for his ignorance?" asked the chairman.

"Tes," said the other, "if you wish to put it in that way."

"Then," continued the chairman sweetly, "all I have to say is that you have much to be thankful for."
